PUBLIC NOTICES

IMPORT TRADE CONTROL

New Delhi, the 31st December, 1952.

SUBJECT:—*Import licensing policy for January—June 1953 for newcomers.*

No. 139-ITC(PN)/52.—The following decisions of the Government of India regarding the issue of licences to newcomers for the import of certain articles for the licensing period January—June 1953 are published for general information:—

2. The list of items for which licences will be given to newcomers is shown in the list attached to this Public Notice. No applications from newcomers will ordinarily be entertained in respect of items which are not mentioned in this list. Certain essential items like machinery and machine tools have not been mentioned in the list. Applications from non-established importers for the grant of import licences for such essential items will be considered on merits on an *ad hoc* basis.

3. Persons or firms who have been dealing in the internal trade of the particular commodity for a minimum period of two consecutive years ending 31st December 1952 and who are not eligible to qualify as established importers or actual users can submit applications for newcomer licences.

4. Established importers who do not wish to claim their quota as such may apply as newcomers. Such firms should furnish, in addition to the evidence of their past imports, evidence of their turnover giving reasons why a licence as an established importer has not been claimed. Applications should be submitted in the prescribed form together with a certificate from a Chartered Accountant showing that the applicant has been dealing in the internal trade of the country in respect of a particular item and certifying the turnover of the applicant in respect of that item

during the period of two consecutive years ending 31st December 1952. The application form as well as the auditor's certificate attached thereto given in the 'Hand Book' should be deemed to have been amended accordingly. Documentary evidence should also be furnished in support of purchases of the goods concerned from importers or wholesalers.

5. The minimum turnover which will qualify a newcomer for being considered for the grant of an import licence has been given in the attached list. This condition of minimum turnover will apply only to firms having Branches or Headquarters at the ports of Bombay, Calcutta and Madras. In the case of firms with Headquarters at other places and with no branches at the ports of Bombay, Calcutta and Madras, applications for import licences will be considered if the turnover does not fall below one-fourth of the minimum given in the attached list.

6. Applications from newcomers complete in all respects should reach the appropriate licensing authority on or before the 28th February, 1953. Incomplete applications or applications received after that date will not be considered.

7. The minimum value limit of an import licence to be granted to newcomers will be the same as prescribed in the case of established importers. The maximum value of a licence to be issued to a newcomer will not ordinarily exceed the amount shown in the attached list against each item.

8. Government does not bind itself to grant newcomer licences to each applicant.

SUBJECT:—*Licensing Policy in the case of Machine Tools—January—June 1953.*

No. 140-ITC(P.N.)/52.—For purposes of licensing, Machine Tools falling under Part VI of the Import Trade Control Schedule *vide* Schedule 'A' attached, are divided into two main categories, *viz*:

- (a) those falling within the definition of Capital Goods, and
- (b) others.

2. The rules and procedure in the case of Machine Tools falling in the category of Capital Goods have already been set out in Chapter II of the Plant and Machinery Hand Book and, therefore, this Public Notice only deals with Machine Tools which do not come under the Capital Goods Scheme.

3. A list of machine tools whose import is not ordinarily considered necessary is given in Schedule B attached.

4. The licensing Authority in the case of Machine Tools other than those coming under the Capital Goods Scheme is the Development Officer (Tools), Tools Development Directorate, Ministry of Commerce & Industry, New Delhi.

5. Machine Tools referred to in para. 3 above will not be licensed during the period January-June 1953, to Established Importers, Actual Users and Sole Agents. The main working rules and procedure to be observed in the licensing of applications from these three categories of importers are set out below.

I. Established Importers

(a) *Basic Period.*—The basic period for calculation of quotas to which an established importer is entitled will be any one complete financial year between 1st April 1945, and 31st March, 1952. Importers will not be required to produce evidence to show that they had effected imports of Machine Tools in another year during the same period

(b) In establishing the figures of past imports for purposes of calculation of quotas the general instructions given in paragraph 4 of Chapter III of the Hand Book of Rules and Procedure, 1952 will be followed. Imports made under licences granted against the orders of the late D.G.I. & S. (now D.G.S. & D.) or of the Government Railways, under licences obtained as actual users, and under C.G. or H.E.P. licences will not be taken into consideration for the calculation of quotas. Imports of accessories like cutting tools will also not be taken into account for the calculation of quotas.

(c) The last date for applying for a quota to the Development Officer (Tools) along with the relevant documentary evidence in support of their past imports will be the 15th March, 1953. An auditor's certificate in the form annexed to this Public Notice in Schedule 'D' will be acceptable as evidence of past imports for the period January-June 1953, though the Development Officer (Tools), may in his discretion call for any other documentary evidence that he considers necessary to satisfy himself of the correctness of the statements made.

(d) Quotas on which established importers' licences will be issued are:

General 50 per cent. of half of the best years imports of all machine tools, and Soft 75 per cent. of half of the best year's imports of all machine tools.

(e) Quotas will be calculated separately for General Licences and Soft Currency Licences. For the former, imports from the dollar areas alone will be taken into account. Importers should, therefore, in their own interest submit separate statements showing their imports from the dollar area and the soft currency area respectively.

N.B. 1: Established importers who have established their quota in July/December 1952, period need not make an application again for establishment of quotas as their quotas already established for the 2nd half of 1952 will hold good for January/June 1953.

N.B. 2: Wherever Established Importers can give specific proof that the quota allotted to them is insufficient to meet their demands additional sanction of *ad hoc* quota will be considered. In such cases the Established Importers will have to substantiate by facts and figures the justification for the *ad hoc* quota applied for before 30th April 1953.

(f) After the quota has been accepted, the importer may make any number of applications for licence in the form given in Schedule C upto the total value of the quota on or before the 30th May 1953, which is the last date for submission of application. Such applications should be made in quintuplicate. Applications should be accompanied by the necessary treasury receipts etc.

(g) Licences will be given for all permissible types of machine tools upto the value of the quota admissible to the importer subject to the proviso that the import of the following types of machine tools will be limited to such reasonable proportion of the total quota of the importer as the licensing authority may consider sufficient to meet the current needs.—

- (i) Lathes.
- (ii) Drilling machines.
- (iii) Lathe chucks.
- (iv) Machine vices.

(h) Licences for machine tools will also be valid for import of their spares.

(i) Licences will continue to be granted to meet specific orders placed by the D.G.S. & D. and Government Railways in accordance with the usual procedure.

(j) The validity of licences will, in the case of machine tools required to fulfill D.G.S. & D. and Government Railway contracts, be in accordance with the delivery stipulated in the contract. In other cases licences will have an initial validity of 18 months from the date of issue, but importers will be enabled to clear machine tools with longer delivery periods, either by extending the validity of the licences or by the grant of fresh licences against any future quotas that may be released to them, so that contracts entered into within three months of the issue of a licence are not frustrated merely because the time taken for delivery is longer than the initial validity of the licence.

(k) The limiting factor for licences for machine tools will be quantity, but if the actual price exceeds the face-value of the licence by more than 5 per cent. it will be necessary to present the licence for amendment. The increase in value will be adjusted against the current quota. In the case of licence for spares and cutting tools value will be the limiting factor.

II. Actual Users

(a) Actual Users should make only one application for each currency area and for each project (new or expansion) in respect of their requirements of Machine Tools during the licensing period January/June 1953, for a value not exceeding Rupees one lakh f.o.b. (Applications for higher value are considered under the Capital Goods Scheme).

(b) If the stores are required for the replacement of existing machines, any number of applications for any value can be made to the Development Officer (Tools).

(c) The provisions made in clauses (j) and (k) above under the heading 'Established Importers' are also applicable to actual users applications.

(d) Actual Users' applications should always be accompanied with an essentiality certificate from the Director of Industries of the State where the factory is situated or by the Development Officer concerned of the Ministry of Commerce & Industry. In the case of applications for only spare parts, an essentiality certificate from these authorities will not generally be insisted upon provided the quantity and values involved are small.

III. Sole Agents

Applications from sole agents of foreign manufacturing firms who have no past imports for two years to establish quota will be considered on *ad hoc* basis. The sole agents should first ask for a quota indicating the value of machine tools desired to be imported and should furnish the following particulars:—

- (a) A certificate to the effect that he has no past imports of any machine tools covered by part VI for two years. In case the sole agent has imports for less than 2 years full details of the imports should be furnished.
- (b) An original copy of the agreement reached between the sole agent and the manufacturer.
- (c) A statement of technical staff employed in India and their technical qualifications and experience.
- (d) A list of the type of machine tools with descriptive catalogues which the applicant desires to import.

The last date for applying for a quota as a sole agent is 15th March 1953. After the quota has been fixed, the applicant may make any number of applications for licence in the form given in Schedule C upto the total value of quota allotted to him, prior to 31st May 1953.

The licensing authority may refuse a quota or licence to a sole agent if the machine tools desired to be imported under sole agency are not considered essential for the economy of the country or if similar and equally good machines are available from a less hard currency source.

6. All applications should be submitted to the Development Officer (Tools) complete with documentary evidence in quintuplicate and in conformity with the general procedure fully set out in the Hand book of Rules and Procedure.

Applications for the second category i.e., for the light lubricating oils of viscosities 90 seconds and less must mention the enduse giving quantities against each enduse. In order to give importers a certain amount of flexibility of programme, the licences to be issued for the light viscosity oils will not stipulate any viscosity limit, as there is no objection to importers bringing in some high viscosity oils against these licences, the object being solely to restrict the import of light viscosity oils. The licences to be issued for the other category i.e., lubricating oils with a viscosity over 90 seconds (Redwood 1 at 140°F) will contain a condition that the oils to be imported against the licences should have viscosity over 90 seconds.

General licences will be granted to established importers on the basis of a quota of 100% of half of best year's imports from dollar area and soft currency licences on the basis of 200% of half of best year's imports from soft currency area. APPENDIX T

IMPORT OF X-RAY ELECTROMEDICAL EQUIPMENT, ACCESSORIES AND SPARE PARTS OF ELECTROMEDICAL APPARATUS ETC. BY THE SUPPLIERS OF X-RAY AND ELECTROMEDICAL EQUIPMENT.

It has been represented to the Government of India that although electromedical apparatus is allowed to be imported liberally, the suppliers of these apparatuses cannot get spare parts, accessories and supplies of allied nature for servicing and maintaining the existing equipments properly as these accessories, spare parts and articles of allied nature were classified under different Serial Nos. of the Import Trade Control Schedule which are sometimes licensable strictly on a quota basis or are not licensed at all.

2. With a view to maintain the operation of the X-Ray and electromedical equipment, it has been decided that the suppliers of X-ray and electromedical equipment can apply for their requirements of various articles although they may be falling under different Serial Nos. of the Import Trade Control Schedule under one application. A list of articles desired to be imported in broad categories like rotary converters, transformers, photographic tanks, transformer oil and film hangers etc. and spare parts of the equipment should all be listed and a consolidated application should be made for all these. The requirements should be certified by the All India X-ray and Electromedical Traders' Association, Bombay.

3. On receipt of the consolidated application giving a list of the articles desired to be imported and the value of each duly certified by the Association, the Import Trade Controller at the port will grant each firm a licence for its consolidated requirements and attach the list of the articles with the licence. Where certain articles are licensed on a quota basis the reasonableness of the demand of those articles can be judged from the firm's quota in respect of that article. The quota for these articles will be merged in the licence allowed under this Public Notice. If the firms concerned have obtained any quota licence they should mention the name of the article and the amount of quota licence allowed so that adjustments for the same can be made, if necessary.

4. Although the value of individual articles as per requirements certified by the Association will be indicated in the list of articles for which the licence is granted, the licence holders can exceed the value of individual items by 25 per cent. of the value for that item provided that the total c.i.f. value of the licence is not exceeded.

5. It has also been decided that the import of one pair each of lead rubber X-ray apron, lead rubber gloves (required for the radiologist) and lead glass "goggles" may be allowed clearance under the O.G.L. when they are imported along with the X-Ray equipment but not separated from it.

APPENDIX V

IMPORT OF SPARE PARTS OF A MAJOR ITEM AGAINST LICENCES ISSUED FOR the import of major item only (Public Notice No. 29-ITC(P.N.) / 52, DATED THE 21ST MARCH, 1952].

The attention of importers is invited to the Ministry of Commerce Public Notice No. 184-ITC(P.N.) / 51, dated the 19th November 1951, on the above subject. It has been represented that the exact scope of the concession regarding the import of spare parts against licences for the import of a major item is not quite clear and might lead to difficulties at the time of clearance of goods on arrival. It has therefore been decided in partial modification of the Public Notice under reference that the scheme will apply to specified items only.

2. For the present the scheme will be applicable to the following articles:—

- (1) Electrical instruments falling under Serial No. 39 of Part II of the Import Trade Control Schedule.
- (2) Electrical instruments, apparatus and appliances specified in Serial Numbers 45 and 46 of Part II.
- (3) Photographic instruments, apparatus and appliances falling under Serial No. 305 of Part IV.
- (4) Electrical instruments, apparatus and appliances falling under Serial No. 78 of Part V.
- (5) Instruments, apparatus and appliances falling under Serial Nos. 92, 93 and 94 of Part V of the Import Trade Control Schedule.
- (6) Industrial Sewing Machines falling under Serial No. 76 of Part V.

3. Spare parts for the above items even though classifiable under different serial numbers of the Import Trade Control Schedule will be allowed clearance up to 5 per cent. of the value of the main licence provided that the parts are essential for the working of the major article and have been given for that purpose some special shape or quality which would not be essential for their use for any other purpose.

4. This concession is, however, subject to the condition that no spare part which is for the time being on the prohibited list may be imported.

5. The question of including other articles under the scope of this concession is under examination and additions will be made from time to time. Representations from the trade and industry for the addition of any specific items to this scheme should be addressed to the Chief Controller of Imports, Policy Branch, with such relevant data as will help in coming to a decision on the point.

APPENDIX W

IMPORT OF SPECIAL ELECTRIC BULBS WHICH ARE FITTED TO PHOTOGRAPHIC INSTRUMENTS, SCIENTIFIC INSTRUMENTS AND OTHER INSTRUMENTS AND WHICH ARE IN A WAY PART OF SUCH INSTRUMENTS AND WITHOUT WHICH THE INSTRUMENTS BECOME UNSERVICEABLE [PUBLIC NOTICE No. 50-ITC/(P.N.)/52, DATED THE 9TH MAY, 1952].

Representations have been received that scientific, photographic and other instruments are often rendered idle on account of the fact that they need special types of electric bulbs for use with them and normally speaking the importers of such equipment do not hold import licences for electric bulbs. The following decisions have been taken to remove these difficulties:—

- (a) In future, whenever a complete equipment is imported, in which an electric bulb having some peculiarity as to size, shape or filament is used, it will be permissible to import three spare bulbs of precisely the same type and make as is fitted to the equipment imported. If the number of bulbs fitted to the equipment exceeds one, the number of spare bulbs to be imported will be thrice the number of bulbs in the equipment. This concession will be applicable whether the equipment is imported against a licence or under Open General Licence. In the former case the value of the spare bulbs will be debited to the value of the licence against which the equipment is imported. In the latter case, the spare bulbs will be allowed clearance without a licence.
- (b) In order to enable the supply of replacements to equipment already imported in the country in the past, importers holding licences for equipment of a type for which such special non-G.L.S. type lamps are required will be permitted to apply for the endorsement of their existing licences to cover the imports of special types of lamps. This concession will only be granted to established importers who have imported equipment needing such bulbs during the last three years and it will be necessary for them to produce documents (bills of entry and invoices) to show that they have made such imports during each of the last three years. On production of such documents, their existing licences for the import of a particular equipment will be made valid for the import of spare bulbs also upto a value not exceeding $2\frac{1}{2}$ per cent. of the total c.i.f. value of the licence.
- (c) Where the equipment in question has been imported in the past under Open General Licence and continues to be imported under the Open General Licence at present, established importers will be granted a special licence for the import of non-G.L.S. types of bulbs to fit such equipment equal in value to $2\frac{1}{2}$ per cent. of the value of

APPENDIX W—*contd.*

such equipment actually imported by them during any of the three years ending 31st March 1952 provided they produce documents to show that they have been making such imports during each of the last three years.

2. Applications for special licences or endorsements on existing licences in terms of the preceding paragraph should be made to the import Trade Controllers at the ports with the relevant bills of entry, invoices, etc., and also a treasury chalan where a fresh licence is needed, in the form and manner prescribed in the Handbook. Applications should reach the licensing authorities concerned on or before the 7th June 1952.

APPENDIX X

3. The Scheme will apply to applications of an aggregate value of Rs. 25,000 or over for any project or subsidiary thereto.

4. These requirements will be centrally licensed by the Chief Controller of Imports in New Delhi and all the requirements should be put in one application rather than piecemeal according to the Serial Number of the Import Trade Control Schedule. The applications will be treated in the same way as the applications for Capital Goods. They should be made in the form prescribed for Capital Goods and Heavy Electrical Plant and should be submitted in duplicate to Chief Controller of Imports through Central Water and Power Commission, New Delhi.

5. The initial period of validity for these licences will be 1 year from the date of issue and will be extended to a maximum period of 3 years on production of documentary evidence to show that a firm order has been placed and accepted by foreign suppliers. In cases where such evidence is produced at the time of submission of the application, licences will be issued with the maximum period of validity and no further extension will be necessary.

6. The applications should be accompanied with the usual treasury receipt and the Income-tax Verification Certificate Number or the specific exemption number as in the case of Capital Goods applications.

If the value of the spare parts required to be imported by an actual user having his place of business at (a) Howrah and Calcutta, (b) Madras, and (c) Bombay exceeds, in any half year, Rs. 5,000, the application should be accompanied by a certificate from a qualified Engineer, preferably on the staff of the applicant firm, to the effect that the spare parts required to be imported cannot be fabricated in any of the reputed workshops in (a) Howrah and Calcutta, (b) Madras, and (c) Bombay respectively.

APPENDIX Z

LICENSING OF SMALL TOOLS FALLING UNDER SERIAL NO. 20(1), 20(2), 20(3),
AND 20(4) OF PART II OF THE I.T.C. SCHEDULE FOR THE PERIOD
JANUARY-JUNE 1953.

It has been decided that licences for small tools namely metal working tools, wood-working tools, hand tools and twist drills and reamers falling under Serial No. 20(1), 20(2), 20(3), and 20(4) of Part II of the I.T.C. Schedule will in future be granted by the Development Officer (Tools), Tools Directorate, Ministry of Commerce and Industry, Shahjahan Road, New Delhi, instead of by the Joint Chief Controller of Imports, Calcutta.

2. Applications will be entertained from Established Importers, Actual Users and Sole Agents. Applications should be made in the form and manner prescribed in the Handbook of Rules and Procedure 1952 in the same way as they were being made to the Joint Chief Controller of Imports, Calcutta.

3. The quota percentages for established importers are given in the annexed Schedule 'A'. List of small tools which are manufactured in India and whose imports are not considered necessary is given in Schedule 'B'. Licences issued hereafter for small tools will not be valid for the import of these items.

4. The basic period and the documents in support of past imports to be produced will be the same as prescribed for established importers generally for the half year in question. Quotas will be calculated for each sub-item separately on the basis of imports of articles under that sub-item and imports made against licences granted to meet orders placed by the late D.G.I. & S. (now D.G.S. & D.), Railways, etc. will not be taken into account for purpose of calculation of quota. In the application full description of the Stores e.g., size of the tools, quantities of each etc. should be given. Vague descriptions like cutting tools, wood-working tools etc. will not be accepted for the grant of licences. The validity of the licences will be 12 months from the date of issue and the limiting factor for purposes of clearance from Customs will be the Quantity but if the actual price exceeds the face value of the licence by more than 5 per cent. it will be necessary to present the licences for amendment. The increase in value will be adjusted against future quotas of the firm.

5. Actual users will be given licences for their requirements for a period not exceeding 6 months provided the articles are not banned and are not normally available from the Established Importers. Only one application should be submitted as actual user for each currency area during one period. Actual Users' application should be accompanied with a certificate from the Director of Industries where the factory is situated or from the Development Officer concerned in the Ministry of Commerce and Industry.

APPENDIX Z—contd.

6. Sole Agents of foreign manufacturers who have no past imports or who do not want to take a licence as established importer should furnish the following information to the Development Officer (Tools):—

- *(a) A certificate to the effect that they have no past imports of the small tools covered by Part II, Serial No. 20 or if they have such imports they will not claim a quota as established importer. When an established importer is claiming a sole agent licence, he should furnish information about details of imports in the past.
- (b) A copy of the agreement reached between the sole agent and the manufacturer.
- (c) List of types of small tools with descriptive catalogues desired to be imported. The Sole Agent will be informed whether he can be allowed any licence and applications with the requisite documents should be made only after the receipt of such intimation.

Licences for motor-vehicle parts falling under S. Nos. 293, 295 and 297 of Part IV will be granted to established importers on the basis of a joint quota of past imports of all the articles falling under these S. Nos.

2. The combined quota for the two half-years' July-December 1952 and January-June 1953 will be 100% of best year's imports both for the dollar area and the soft currency area. Firms who have received a quota licence for July-December 1952, will receive the balance to which they may be entitled on the above basis.

3. These licences can be obtained by established importers on presentation of the January-June 1952 licence granted to them. 7. It has also been decided to grant licences for Motor Vehicle parts to persons who have been dealing in spare parts of motor-vehicles in the past and were obtaining their supplies through assemblers and other established importers provided they are prepared to invest a substantial sum for importing automobile parts during January-June 1953. Such persons in addition to producing the documents of turn-over prescribed for newcomers should also produce a Bank Certificate to indicate their capacity to invest in the trade in the half year.

8. Licences for Motor Vehicle parts granted on the basis indicated in the preceding paragraphs will not be valid for imports of:—

(i) Bulb horns.

(ii) Piston rings below 6" dia. with the exception of (a) piston rings imported with the original equipment either C.K.D. or assembled, (b) piston rings for diesel engines,
